

CBX25UH and CBX25UHV Air Handler Enhancement

Additional Technical Changes

In addition to the many serviceability and installability improvements made to the CBX25UH and CBX25UHV, there were other changes made to the models and are noted below:

- The height of the 3 Ton CBX25UH will increase to 52.5 inches from its current 48 inches. As a result, a new catalog number will be made available for this unit. Information on this new catalog number will be forthcoming. No other catalog numbers will be changed.
- The depth of the supply air opening on both the CBX25UH and CBX25UHV has been changed to the following dimensions.

	Dimension	018		024		030		036		042		048-060	
		in.	mm	in.	mm	in.	mm	in.	mm	in.	mm	in.	mm
Original	Depth (E)	17	432	17	432	17	432	17	432	21	533	21	533
	Width (D)	13	330	16-1/2	419	16-1/2	419	19-7/8	505	19-7/8	505	19-7/8	505
New	Depth (E)	14-1/2	368	14-1/2	368	14-1/2	368	14-1/2	368	18-3/4	476	18-3/4	476
	Width (D)	13	330	16-1/2	419	16-1/2	419	19-7/8	505	19-7/8	505	19-7/8	505

- The 10kW electric heat option for the 1.5 ton CBX25UH will not be available on the new version units. However, the 10kW option will still be available for the 2 ton and all other tonnages. The 10kW option will still be available for the CBX25UHV 1.5 ton unit.
- Due to the rerouting of the suction and liquid lines to improve TXV bulb placement, their location on the front of the unit has been changed. (See EHB included with this product kit for more details on the new line locations). As a result, replacement coils for the new unit will be backward compatible with the old unit with the addition of a new cover plate that will be shipped with each replacement coil. However, replacement coils made for the original unit will not be forward compatible to the new unit. Therefore it is necessary to order the new replacement coil part number if replacing a coil in one of the new units. The new replacement coil part numbers are as follows:

New Replacement Coil Cat Number	New Replacement Coil Description
13Y48	Coil - 1.5 ton - 3 row c/w drain pan. TXV (018)
13Y51	Coil - 2 ton - 3 row c/w drain pan /TXV (024)
13Y52	Coil - 2.5 ton - 3 row c/w drain pan/TXV (030)
13Y53	Coil - 3 ton - 3 row c/w drain pan /TXV (036)
13Y54	Coil - 3.5 ton - 3 row c/w drain pan /TXV (042)
13Y55	Coil - 4/5 ton - 3 row c/w drain pan /TXV (48/60)
14X90	Coil - 1.5 ton - 3 row (18) E coated
14X92	Coil - 2 ton - 3 row (24) E coated
14X93	Coil - 2.5 ton - 3 row (30) E coated
14X94	Coil - 3 ton - 3 row (36) E coated
14X97	Coil - 3.5 ton - 3 row (42) E coated
14X98	Coil - 4/5 ton - 3 row (48/60) E coated

Reminder:

New Models Available Starting Summer of 2016

New models will be released as a running change as inventory on current models is depleted.

Please make sure your dealers are aware of these changes that could impact installations and preparations for use of the CBX25UH and CBX25UHV.
