

Virtual BuildATech®

Virtual BuildATech® gives your new hire the chance to learn on the job while completing virtual training through the proven curriculum of the highly successful four-week BuildATech® course. Virtual BuildATech® bridges the gap between tactile and visual learners, with virtual and proctored learning at a self-paced rate for every student. No technology or experience requirements prior to enrolling.

WHAT'S IN IT FOR YOU?

Online Doesn't Mean Alone

Our experienced instructors are there every step of the way to answer questions and help keep the student on track.

Exclusive Materials

Our exclusive material features module topics covering HVAC fundamentals, electrical, cooling, heating, technician communications, and NATE preparation.

Interactive Learning

The course features an exclusive 3-D HVAC Troubleshooting simulation program that allows the student to walk through a service call from the comfort of his or her own computer.

Self-Paced Curriculum

No matter the season, the self-paced nature of Virtual BuildATech® means you don't have to sacrifice your technician's productivity for training.

Certifications & Comprehension

Each segment concludes with a proctored exam, which requires a successful passing score in order to continue. Upon completion, students earn EPA certificates, and test for the NATE exam.
