

LennoxPROs.com Search Tips

The LennoxPROs.com Document Library contains active and inactive marketing assets, technical docs and warranty info that will give you the information you need to get the job done. This document contains a few search tips to help you quickly find all the Lennox information you need.

There are 3 ways to access documents on LennoxPROs.com

1. Product Detail Page

In the Search bar, type the catalog number, model number, part number or keyword you are searching for. For example, you can search for XC25 or XC25-060-230 or 11U88. Click the magnifying glass.

Select the product from the [search results](#). This takes you to the product detail page.

2. Searching from Partner Site/Document Library

Login to LennoxPros.com. In the Search bar, type the model number, for example, XC25 or XC25-060-230. Click on the magnifying glass.

Next click on [Partner Site](#).

The screenshot shows the LennoxPROs website interface. At the top, there is a navigation bar with links: Welcome, LennoxPROs Test, My Account, Store Locator, My Learning, Community, Admin, Help, and Sign Out. Below this is the LennoxPROs logo and a search bar with the placeholder text "Search by keyword, part #, model #, or catalog #". A red arrow points from the search bar to the magnifying glass icon. Below the search bar is a red "Menu" button and a "Quick Order" button with a dropdown arrow, and a "Cart (47)" button. The main content area shows "Showing results for 'XC25'". Below this, there are two buttons: "Product Catalog" and "Partner Site". The "Partner Site" button is highlighted with a red box. Below the buttons, there is a "Filter results by" section with a list of filters: BRAND, STATUS, PRICE, AIRFLOW, AMPERAGE (AMPS), BEARING TYPE, and BLOWER MOTOR, each with a plus sign. To the right of the filters, there is a "Did you mean: x25?" section with a "Sort: Relevance (Default)" dropdown and a "Page 1 of 147" indicator. Below the filters and sorting options, there are three product listings, each with a product image and a description. The first product is XC25-060-230, Air Conditioning Condensing Unit, 19.5 SEER, 5 Ton, Variable, R-410A, DLSC Series. The second product is XC25-024-230, Air Conditioning Condensing Unit, 26 SEER, 2 Ton, Variable, R-410A, DLSC Series. The third product is XC25-048-230, Air Conditioning Condensing Unit, 21 SEER, 4 Ton, Variable, R-410A, DLSC Series. Each product listing also includes a "CAT #" and a "MODEL NUMBER".

b. How to Search for Marketing Assets:

To limit your results to marketing assets, click the “Marketing” filter.

The screenshot shows a search results page for 'air handlers'. On the left, there are two filter sections: 'Publication Type' and 'Product Type'. Under 'Publication Type', 'Marketing Document' is highlighted. Under 'Product Type', 'Residential' is highlighted. The main content area shows a search bar with 'air handlers' and a red search button. Below the search bar, there are tabs: 'Everything', 'Marketing' (which is selected and highlighted with a blue box), 'Technical', 'Warranty', and 'Community'. The results list includes:

- TAA Air Handler**: General The TAA Series **air handler** units are designed for installation with a matched ... The **air handler** units are for indoor installation only and are designed for upflow or ...
- Air Handlers and Indoor Coils (01/14) 15W74**: comfort and energy savings set Lennox® **air handlers** and indoor coils apart. Commercial **air handlers** and indoor coils from Lennox offer ...
- CB29M & CB30M Air Handlers**: 89) OPTIONAL ELECTRIC HEAT (FIELD-INSTALLED) **AIR FLOW LIQUID LINE SUCTION**

Now, you can narrow your results by product type, asset type, product category, product tier or model number. Click “Residential” to narrow it down to residential air handlers.

The screenshot shows a 'Marketing Results' page for 'air handlers'. On the left, there are three filter sections: 'Product Type', 'Marketing Assets', and 'Product Category'. Under 'Product Type', 'Residential' is highlighted with a blue box. Under 'Marketing Assets', 'Literature' is highlighted. Under 'Product Category', 'Air Handlers' is highlighted. The main content area shows a search bar with 'air handlers' and a red search button. Below the search bar, there are tabs: 'Everything', 'Marketing' (selected), 'Technical', 'Warranty', and 'Community'. The results list includes:

PDF Reading Tips:

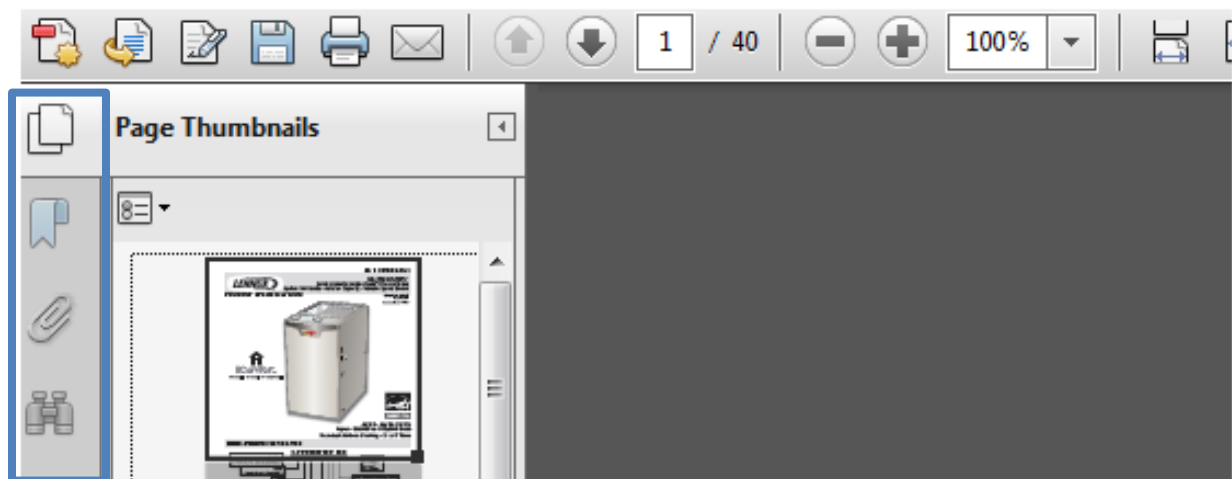

Many of the PDFs in the document library are bigger files, so searching for the exact information you want can sometimes be cumbersome. Below are a few tips on how to quickly find the information you're looking within the PDF document!

Note: The PDF readers in the examples below could be slightly different than your PDF reader on your computer.

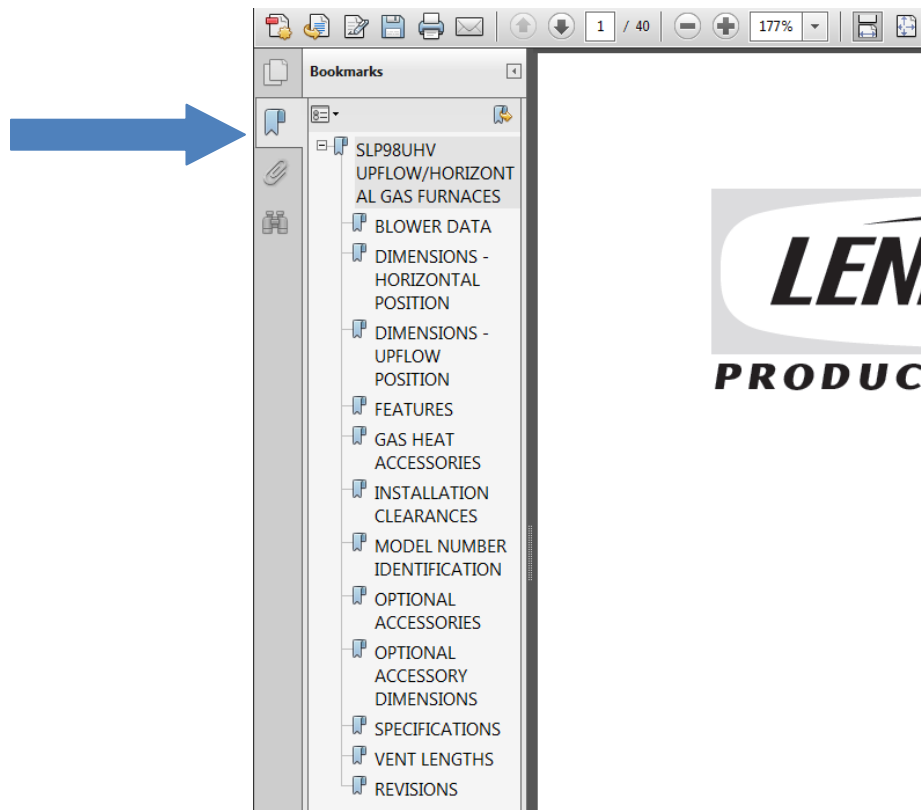

Tips for Using PDF Readers in Internet Explorer:

For this example we are using the [SLP98UHV Product Specifications PDF](#). First, open the PDF.

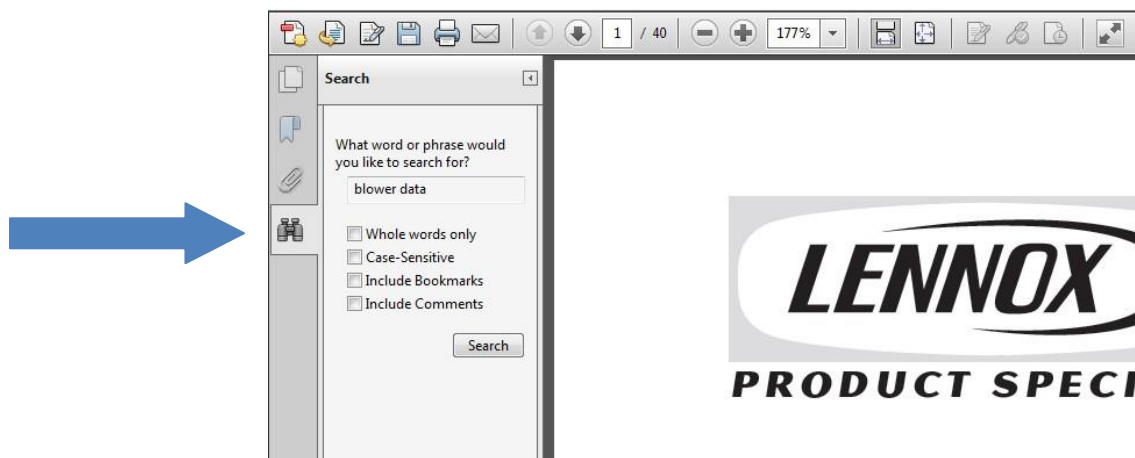

Notice there are four vertical icons on the left hand pane. The first icon is page thumbnails to view the "thumbnail" view of each page.

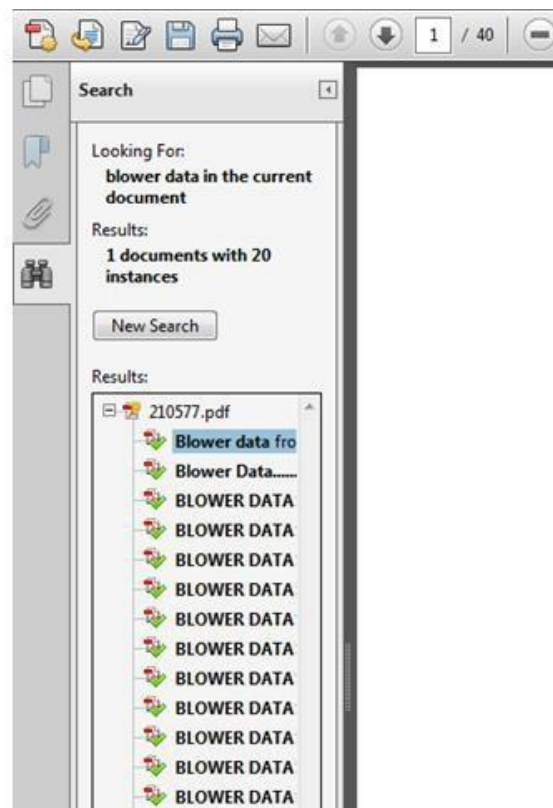

The second icon is the “Bookmarks” (ribbon) icon. These bookmarks will take you directly to the area of the document you’re looking for. For instance, click on the “Blower Data” bookmark to be ported to the SLP98V’s blower data page instantly.

Another useful icon is the search (binoculars) icon. You can use this area to search for any information you’re looking for within the PDF. For this example, blower data was used for the keyword.

Results for “Blower data” populate in the document. It’s that easy!

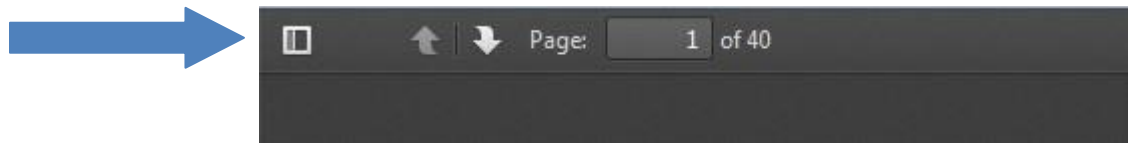

PDF Reader in Firefox:

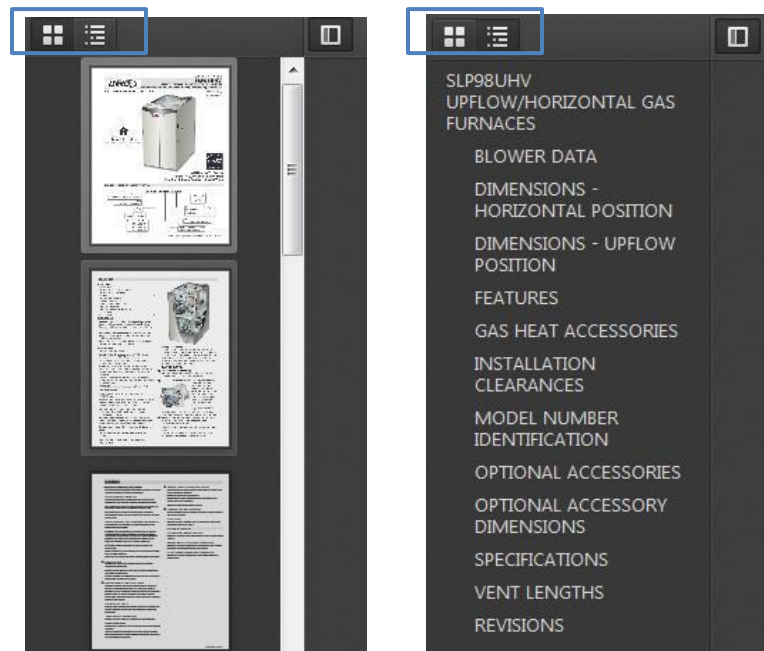

For this example we are using the [SLP98UHV Product Specifications PDF](#). First, open the PDF. Your screen might look something like this:

On the upper left hand side of the page, click the left most icon.

This gives you the option to view thumbnails and to view bookmarks within the PDF. The first icon is the thumbnail page view icon. The second, is the bookmark icon. By clicking on any of the bookmarks, you will be ported to that particular area of the document instantly.

Remember, at any time you can press the “CTRL F” keys to search keywords within the PDF!

PDF Reader in Google Chrome:

For this example we are using the [SLP98UHV Product Specifications PDF](#). First, open the PDF. Your screen might look something like this:

Unfortunately, Google Chrome's default PDF viewer does not allow you to view the bookmarks and thumbnail view within the PDF. The best options for viewing PDFs in Chrome are to either use Adobe Reader to open your PDF or to use the "CTRL F" function to search for keywords within the PDF document.

For instance, hit "CTRL F", type in "blower data", and 20 different results will populate in the PDF with references to blower data.

WARRANTY

Duralok Plus™ Aluminized Steel Heat Exchanger - Limited lifetime warranty in residential applications (twenty year transferable), ten years in non-residential applications.

All Other Covered Components - Limited ten year warranty in residential applications, one year in non-residential applications.

Refer to Lennox Equipment Limited Warranty certificate included with equipment for details.

APPROVALS

Units are certified by AHRI.

Units tested and rated according to US DOE test procedures and FTC labeling regulations.

Blower data from unit tests conducted in Lennox Laboratory air test chamber.

All models are approved by the California Energy

Zoning Applications

The SLP98UHV furnace is designed to work with the Lennox iHarmony® Zoning System with the iComfort Wi-Fi® Thermostat. The iHarmony® Zoning System provides direct feedback to the SLP98UHV, controlling both airflow and heat output to precisely match the comfort requirements for up to four zones.
